July 10, 1987

Mr. James P. Lake  
Lone Star Industries  
615 West Eighth South  
Salt Lake City, Utah 84104

Dear Mr. Lake:

Re: Declaration of Exemption, Lone Star Industries, Portland Cement  
No. 1, et al, Limestone, DOE/035/003, Salt Lake, Utah

The Division is in receipt of your Declaration of Exemption (DOE) MR-4 application form for the above referenced claim. While the Division does not require any further information at this time, please note the following developments concerning "small mining operations" within the state of Utah.

During the 1986 and 1987 general session, the Utah State Legislature modified the Mined Land Reclamation Act, Chapter 8, Title 40, U.C.A., as amended. In part, the amended act eliminates the two acre/500 ton exemption and establishes a "small mining operation" category in its place. Small mining operations are defined as "mining operations which disturb or will disturb five or less surface acres at any given time".

The Division is continuing to accept MR-4 applications during the interim period between the passage of the amended act and the development of accompanying rules and regulations. However, please be advised that upon promulgation of new rules and regulations, each operator possessing an approved DOE and desiring to continue mining operations will be required to refile under the provisions of the new law and regulations pertinent to a "small mining operation". The Division will notify those operators having approved DOE applications on file of the new filing provisions when they are finalized.

Thank you for your cooperation and for filing your application notice with our office. A Division representative will schedule a field inspection of your mine site when in the area. Should you have any questions or require additional information, please feel free to contact me or Dave Wham of my staff.

Sincerely,
